EDUCATION

University of Manchester <i>MSc Business Analytics & AI</i> Relevant modules: Python Programming for Business Analytics, Machine Learning for Business, Digital Strategy, AI Trends & AI Ethics.	Manchester, UK Sep 2026 – Aug 2027
Covenant University <i>BEng Computer Engineering, First-Class Honours (4.95/5.00 GPA)</i>	Ogun, Nigeria Aug 2018 – Aug 2023

SKILLS

Product & Delivery: Requirements definition User stories Roadmap support Stakeholder management Agile/Waterfall
Data & Analytics: Python SQL R Excel Tableau Power BI Machine Learning Jupyter Notebook
Technical: GitHub AWS Azure Prompt Engineering

PROFESSIONAL EXPERIENCE

Jean Edwards Consulting <i>Business Analyst</i> - Led the design and delivery of an AI-powered web application that transforms client-submitted Excel files into a standardised format, reducing manual processing time by over 40% and improving data consistency - Contributed to the delivery of an NLP/ML-based Medical Protocol Ingestion proof-of-concept, authoring extraction rule sets for the OCR/NLP pipeline, conducting testing across 61 protocols, and achieving 90% extraction accuracy on initial cases - Analysed business workflows to identify inefficiencies, driving a 15% improvement in process efficiency and closer alignment with client goals - Produced business requirements, user stories, and process flow diagrams to guide delivery and stakeholder alignment - Designed and executed test cases and conducted UAT across 4 solutions, validating functionality and ensuring requirements were met before client handover	Abuja, Nigeria Nov 2024 – Present
PricewaterhouseCoopers (PwC) <i>IT Risk Assurance Intern</i> - Conducted quantitative analysis on datasets of 10,000+ records using SQL, ACL, and Excel to surface anomalies across audit and assurance engagements, delivering data-driven insights to senior stakeholders - Partnered with stakeholders to assess business controls, risks, and workflow inefficiencies across 10 engagements, documenting findings that directly informed business decisions - Supported risk assessments across applications, databases, and operating systems (Oracle, SAP, MySQL) that identified and documented 100% of high-risk control deficiencies within assigned audit scopes	Abuja, Nigeria Jan 2024 – Oct 2024

PROJECTS

AI Weekly: DOE-framework agent automating weekly NGX/US market research and reporting, engineered so every figure traces to real data, never AI-invented.
Customer Segmentation (RFM): RFM segmentation of ~5,900 customers from ~1M UK retail transactions in Python; identified a segment spending 22x more than at-risk customers.
Retail Sales Dashboard: Power BI dashboard (SQL Server + DAX) surfacing a +105% sales-vs-budget variance across product, customer, and geography.

CERTIFICATIONS

Microsoft Certified: Azure AI Fundamentals (AI-901)	Jul 2026
BCS Foundation Certificate in Business Analysis (v4.1)	Jun 2026
Unsupervised Learning, Recommenders & RL – Stanford/DeepLearning.AI	Nov 2024
Supervised ML: Regression & Classification – Stanford/DeepLearning.AI	Jul 2024
IBM Data Science Professional Certificate	Jun 2024
Google Data Analytics Professional Certificate	Sep 2022

AWARDS & SCHOLARSHIPS

PTDF Overseas Scholarship, University of Manchester	2026
Best Graduating Student, Computer Engineering, Covenant University	2023
NNPC / Total National Merit Scholarship	2020

VOLUNTEER EXPERIENCE

Member, Environmental and Protection Services Nov 2023 – Nov 2024 Coordinated community clean-up initiatives and sanitation/hygiene education sessions	Abuja, Nigeria
